## Additional Auction Information (general information only)

### Consignment of units

The quickest way to get your vehicle to the auction and up for sale is to fax a pickup form indicating where and when a vehicle can be picked up. Our fax number is (505) 213-0034.

We will also need a consignment card completed for each unit we run. This should indicate the date you wish the unit to run at our sale, mileage claim (ie, actual, not actual), and the price you wish to sell the unit for. If the unit is to be sold no matter the bid you would indicate "sell" in the price area of the consignment card.

Upon request we can provide a condition report and/or pictures for any unit consigned.

### Payment for sold units

Each vehicle sold is assessed a sale fee. This fee is deducted from the proceeds of the sale. We will also deduct any additional service fee (ie, detail, keys, transportation).

We must have a negotiable title before funds can be released for a sold unit.

All titles must be received by this office within 30 days of the date of sale

In the event of Consignor's failure to surrender title in a timely manner, as stated above, the buyer may elect to cancel the sale and return the subject automobile any time following 30 days. If buyer wishes to cancel the sale in such circumstances, buyer shall notify FAA during regular business hours to that effect. All parties agree that FAA shall retain final authority to approve the return of a vehicle pursuant to this rule. The parties here to agree that the buyer's sole remedy in such circumstances shall be the right to cancel the sale as just stated and to be reimbursed for any transportation expenses actually incurred in effecting the return of the subject vehicle as approved by FAA. All parties agree that this provision encompasses both the duties and the remedies of the parties with respect to a late title, notwithstanding any other right or remedy which may be provided by law or in equity.

- R. Method of title transfer and related disclosure statements will be conducted as per New Mexico state law.
- S. Auction does not provide any type of insurance coverage on vehicles consigned for sale, storage, or transportation, on or removed from auction premises. Auction will not be responsible for fire, theft, vandalism, wind, hail, collision, or any other damage. The legal or equitable owner of vehicle agrees to assume all such risks arising from such ownership and shall provide insurance for same.
- T. Each buyer and seller authorizes FAA to act as his agent and trustee to purchase, sell, transport and store vehicles, transfer ownership thereof and execute any disclosure statements relating thereto. Each buyer and seller agrees to indemnify it, hold it harmless and defend it against all claims, loss damage, expense, and attorney fees that it may sustain by reason of acting as his agent and trustee, or by reason of default by either buyer or seller.
- U. The amount of the auction company's liability under its guaranty of title of the vehicle the subject of this transaction, shall never exceed the sale price of said vehicle in this transaction, and the maximum amount of the auction company's liability under its said guaranty shall be reduced by deducting from said sale price 2% thereof on the first of each month following the date of this transaction, and all liability of the auction company will expire and terminate on the first day of the fiftieth month after the date of this transaction.
- V. The auction company's guaranty of title is expressly limited to the buyer of the vehicle in the transaction the subject hereof, and said guaranty is not negotiable or transferable. The auction company's guaranty to the  
• buyer shall be void if the purchase price for the vehicle is not paid by the buyer. The guaranty does not protect against defects in the title known to the buyer whether listed as exceptions to the title on the instrument or not. Whatever any claim is made by any person against the title of said vehicle, whether by suit or otherwise, the buyer shall within five days after becoming aware of said claim notify the auction company, giving full particulars of the claim, and shall cooperated fully in defending any legal action and in taking any other steps to minimize possible loss. On payment of any claim under this guaranty the buyer will execute all necessary papers subrogating its right to recover against the seller, or other, to the auction company. The buyer shall not surrender possession of the vehicle, except as required by legal process, to any such claimant, nor shall it voluntarily pay or acknowledge the validity of any such claim, without prior approval of the auction company. Time is of the essence of this agreement and any failure on the part of the buyer to notify the auction company of any such claim shall vitiate the auction company's liability under this guaranty. Likewise, failure of the buyer to cooperate in defending any such claim shall relieve the auction company of the liability under this guaranty.
- W. Firm/Close pricing structure. A FIRM price is within \$50 of low price stated at check-in. A CLOSE price is within \$200 of low price stated at check-in.
